Large Data Files Stored in Dropbox

…/data/JSON - Originals

Contains compressed (7-Zip) copies of the original Yelp Dataset in its JSON format. Each file is contained separately to make sure the files remain under the file size limit imposed by GitHub.

…/data/CSV - Loadable

Contains compressed (zip) converted copies of the original JSON dataset into a CSV format. GitHub does not allow larger files to be stored within their repository so this is not an inclusive collection of the tables.
